CHANDLER-GILBERT COMMUNITY COLLEGE
MATH/SCIENCE TUTORING

Making the Most of MY Tutoring Experience

What can I expect when I visit the Learning Center?

π A supportive, inviting, and friendly learning environment
π Tutors who are courteous, respectful, patient and encouraging
π Tutors who have reasonable knowledge of the subject matter
π Tutors who facilitate my learning but do not do my work for me
π Tutors who seek help if they cannot answer my question
π Tutors who rotate time among students as evenly as possible
π Tutors who suggest additional resources and services

What is expected of me?

π I come prepared. I bring my assignment, notes, textbook, calculator and am ready to work.
π I ask questions. If I am not sure, I ask. If I need help with something in particular, I let my tutor know.
π I allow ample time in my schedule to complete the tutoring process.
π I know that the Learning Center is a supplement to classroom instruction, not a replacement for missed class(es).
π I am respectful of other students and tutors. I keep conversation low, subject matter appropriate and take cell phone calls outside.
π I must be enrolled in and regularly attending the course(s) in which I am requesting tutoring at CGCC. I am required to sign-in and -out each time I visit the Learning Center.

+ As the tutor's role is one of support, ultimate responsibility for all work as to correctness and completeness rests with ME!
