

What will the future look like? You decide.

Intel is pleased to announce a special program being launched during the Summer of 2013 geared to support undergraduates exploring engineering education. The program is called the **INTEL ULTIMATE ENGINEERING EXPERIENCE**.

The event will be hosted by **CHANDLER-GILBERT COMMUNITY COLLEGE** at their local campus, in partnership with Intel.

WHAT IS IT? The IUEE Program is designed to provide you with hands-on technical engineering experience. We will be building a robot, developing an app, and acting like entrepreneurs to create and develop solutions to improve people's lives. There will be competitions with cool prizes to the winning teams. This is an exciting opportunity for you—you won't want to miss it!! Come join other freshman/sophomore students in your area for this awesome experience.

WHEN IS IT? The six week program will kick off on June 3rd and will run through July 11th.

WHAT IS REQUIRED? To be considered you must possess the permanent/unrestricted right to work in the U.S. without sponsorship. You also must be currently enrolled in a qualifying degree program.

How do I sign up?

Go to www.cgc.edu/iuee to sign up.

WHAT DO I GET OUT OF THIS? Students will gain exposure to different types of engineers within Intel and really get a glimpse into the field of engineering. Chandler-Gilbert Community College, in partnership with Intel is providing a fun, high energy and supportive environment in this summer program; students get mentoring and a chance to network and participate in cool activities with Intel employees.

CHANDLER GILBERT COMMUNITY COLLEGE

CHANDLER, AZ JUNE 3 – JULY 11, 2013

When will I be notified if I'm accepted into the program?

Applications will be accepted through April 19^{th} at 5pm.

All applicants will be contacted by April 30, 2013.

"The most important highlight I can see for myself with this program is the networking opportunity I was given. I loved being able to meet so many smart, interesting, and influential people; both Intel people and the interns."

2012 AZ IUEE participant
